ADVANTAGE

BULL SALE

FEBRUARY 19, 2026

WELCOME

ME

Van Dyke and Crabtree Families

Wulff Family

Welcome to the 2026 VDAR Cattleman's Advantage Bull Sale.

A program built on results – proven by time.

Great bulls start with great cows. VDAR is known as *Montana's Original Maternal Cowherd*, built on functional longevity long before it had a name on paper.

These bulls are designed for real-world efficiency, durability, and long-term return.

At VDAR, maternal strength has driven our program. The bulls offered are backed by a cow herd managed with discipline—held to a 42-day calving window for more than 20 years. The future of the cattle industry is built on females that last.

It's a great time to be in the cattle business. We're proud of this offering and welcome you to the ranch anytime to evaluate the bulls. We look forward to seeing you on **February 19th**.

VDAR CHLOE 6473 - GRANDDAM OF LOT 8

"After buying our first VDAR bulls, we decided to purchase a small group of bred cows and I later realized the economic advantage the Van Dyke cattle would provide my herd through the years.

One day while driving through the pastures, I noticed one of the cows getting ready to calve. On my way back, maybe 20 minutes later, I noticed the calf was born, up and nursing. As I drove toward them, the cow called to her calf and the calf pressed its head against her flank and she led it over the hill to protect her baby.

It struck me that it was an instinctive trait that was genetic and we wanted more of that in our cow herd. And that was nearly fifty years ago!"

V D A R FOREVER LADY 4106
DAM OF LOT 38 AND 39

4106 is a Pathfinder® female that remains in our herd at 12 years of age. She offers excellent feet, a great udder, and exceptional real-world functionality and longevity. Her sons have been top-end performers as well, with three of her five sons selling into registered herds to date.

V D A R PF LINDA 5865

VDAR LASS 6499 - DAM OF LOT 53 AND 54
 6499 was another featured cow in our 2022 cow sale, bringing \$10,500 to Stock Ranch of Montana, where she has continued her career as a donor. Her dam is still active in our herd at 12 years old and calved again this year in the first cycle. We have sold herd bulls out of both 6499 and her dam to North Dakota, South Dakota, and Oklahoma. A maternal brother to 6499 was also used back in our herd this past year.

"The fact that our calves perform at the level they do is not just because they are sired by VDAR bulls but also because, for generations, their dams have been as well. Longevity from the VDAR genetics has definitely carried over into our herd as we noticed at a recent branding that there was a cow who looked kind of old and we realized she was 16! She'd reliably produced a calf year after year, and most of those years, you couldn't have picked her out as an older cow!"

THE VAN DYKE DIFFERENCE

We build cows that work, not cows that need managing.

A VDAR cow must:

- Calve every year in a 42-day window
- Raise a marketable calf
- Stay structurally sound — no foot trimming

That's the standard. Miss once, you're gone.

Profit comes from uniform calves and cows that stay in the herd. Tight calving windows drive consistency. Sound cows stay productive until they're sold as broken mouths—not young culls.

We selected for longevity long before it had a name. Today, **Functional Longevity** simply measures what we've always demanded. Over 250 females in our herd rank in the top 5% of the breed for Functional Longevity, including more than a third of our cows and replacements.

No hype.

No excuses.

Just cows that pay.

FUNCTIONAL
LONGEVITY is...
VDAR.

WATCH HERE!

OUR VALUE IS MEASURED BY THE RESULTS OUR CATTLE DELIVER.

Bar V Cattle Company success, built on VDAR vision.

Nearly ten years ago, Bar V Cattle Company formed a relationship with Van Dyke Angus Ranch with the objective of increasing their uniformity, productivity and reproductive efficiency. Bar V Cattle Company's owner, Mike Becker, showed complete faith in the VDAR vision and it has elevated his program to the next level. Bar V's cattle are consistently topping the video sales that they consign to, and the long-term goal of selling top-end replacement heifers, being bred by and bred to Van Dyke bulls, was achieved as they were highly received this fall.

“Even though we had dramatic improvements in performance and uniformity, Tom told me that we would really see the advantages of the VDAR bulls when we start calving their daughters, and he was right! These cows sired by VDAR bulls calve fast, get up and mother their calves immediately and the calves are vigorous and start growing! And this year calving was as easy as it’s ever been. That’s so important with calving a large number of cows and heifers in a short period of time.”

- Black Gold was the \$60,000 high-selling bull of the 2024 Bull Sale to Lucht Angus, Montana. He offers tremendous muscle shape, body depth, elite foot structure, and a remarkably gentle disposition. His dam will qualify as a Pathfinder® in her first year of eligibility. A full brother, VDAR Black Diamond 2194, was the second high seller of the 2025 sale at \$40,000. A maternal sister was selected as the pick of the heifer calves and bred heifers at the 2025 NILE Sale. His dam is five years old and has bred first cycle every year with a 114 weaning ratio. The granddam is eight years old with a 105 weaning ratio, and the great-granddam remained productive until 15 years of age—an elite pedigree built on longevity and real-world function.

He was our selection to carry forward from his sire, VDAR Twenty Twenty, whose daughters are among our most impressive young cows. Rambler's maternal brother was the high seller of the 2025 sale at \$44,000 to VLS Angus, North Dakota. His dam was selected by Whetstone Farms in Kentucky as their donor cow pick from our herd. Rambler continues to add length, balance, and style.

- We used U-2 Coalition 206C for his ability to sire extremely docile cattle with exceptional structural soundness and foot quality. His calves are moderate at birth with controlled growth. As an outcross for VDAR, we are excited about incorporating his sons into our program. His first daughters are proving to be outstanding.
